#### **About us**

AESIS is a Network founded in June 2000 by 8 Independent Insurance Brokers, whose sole purpose was to present the Market with a new solution, more appealing than the existing ones at that time, and where "International" wasn't as developed and explored as nowadays.

Spread across 40 countries, AESIS main goal is to achieve effective cooperation to support the increasingly globalized needs of their Clients, providing them with a wide range of critical and complex management services.
